February 10, 2017

Dear Neighbor:

On February 22, we will ask the Princeton Zoning Board for site plan approval. Our goal is to beautify and improve the site of our existing apartment building. This will include new landscape buffering, made up of 54 trees, the extension of the board fence, and reconstruction of the driveway apron/entrance. The existing shed will be relocated so to be further away from the property lot lines.

We are seeking permission not to pave the gravel parking lot, in an effort to minimize runoff. While the gravel lot requires a variance, paving the lot would cause water runoff issues that would not be an improvement to the area. The town staff supports keeping it gravel.

The planned landscaping and buffering is shown in the above diagram. We hope you agree that the proposed changes would be a benefit. There would be no change to the building, except to be sure that the lighting points downward.

As indicated in the enclosed formal notice, copies of the site plan and other documents are available for inspection at the Municipal Building. If you have any questions or suggestions, please contact Chambers Properties at (609) 924-9201 or email chamberspproperties@verizon.net.
