Hello Justin, Derek and Jim,

Roman and I are preparing to make a submission for a higher density application on our combined lots of 86 and 92-94 Spruce Street. We meet some time ago and spoke conceptually about this job. We have come up with a final concept and before having our engineer put pen to paper, we would like to arrange a meeting to get your initial thoughts and comments so that we can submit a thoughtful plan for compliance. We understand that there will be quite a few variances involved but we think this is a good site to have a higher density application where the town can benefit from an additional 2 affordable units and a dedicated walkway to cut through from Spruce to Hamilton Ave. I've attached the design for you to review before our meeting. Roman and I are available any day or time at your convenience.

Hi All,
Monday at 3 works for me. Jim, Justin and Daniel please advise if that time works for you.
Derek

Derek,

I'm checking back in to see if we are able to schedule an appointment to review the concept drawings, I sent a couple weeks ago, for Spruce Street. Roman and I are flexible to meet any time this month or in early July if that's more convenient. Thanks.

Daniel Barsky

Derek,

Enjoy your vacation and let's schedule something for the end of June, once your back. Thanks.

Hi Daniel, I am out at a conference Friday and only in next Monday and Tuesday which are already booked. I leave on vacation Wednesday 6/15 and return 6/22. I am not able to schedule anything until after 6/22.
Thanks, Derek Bridger
