Hello Deanna,

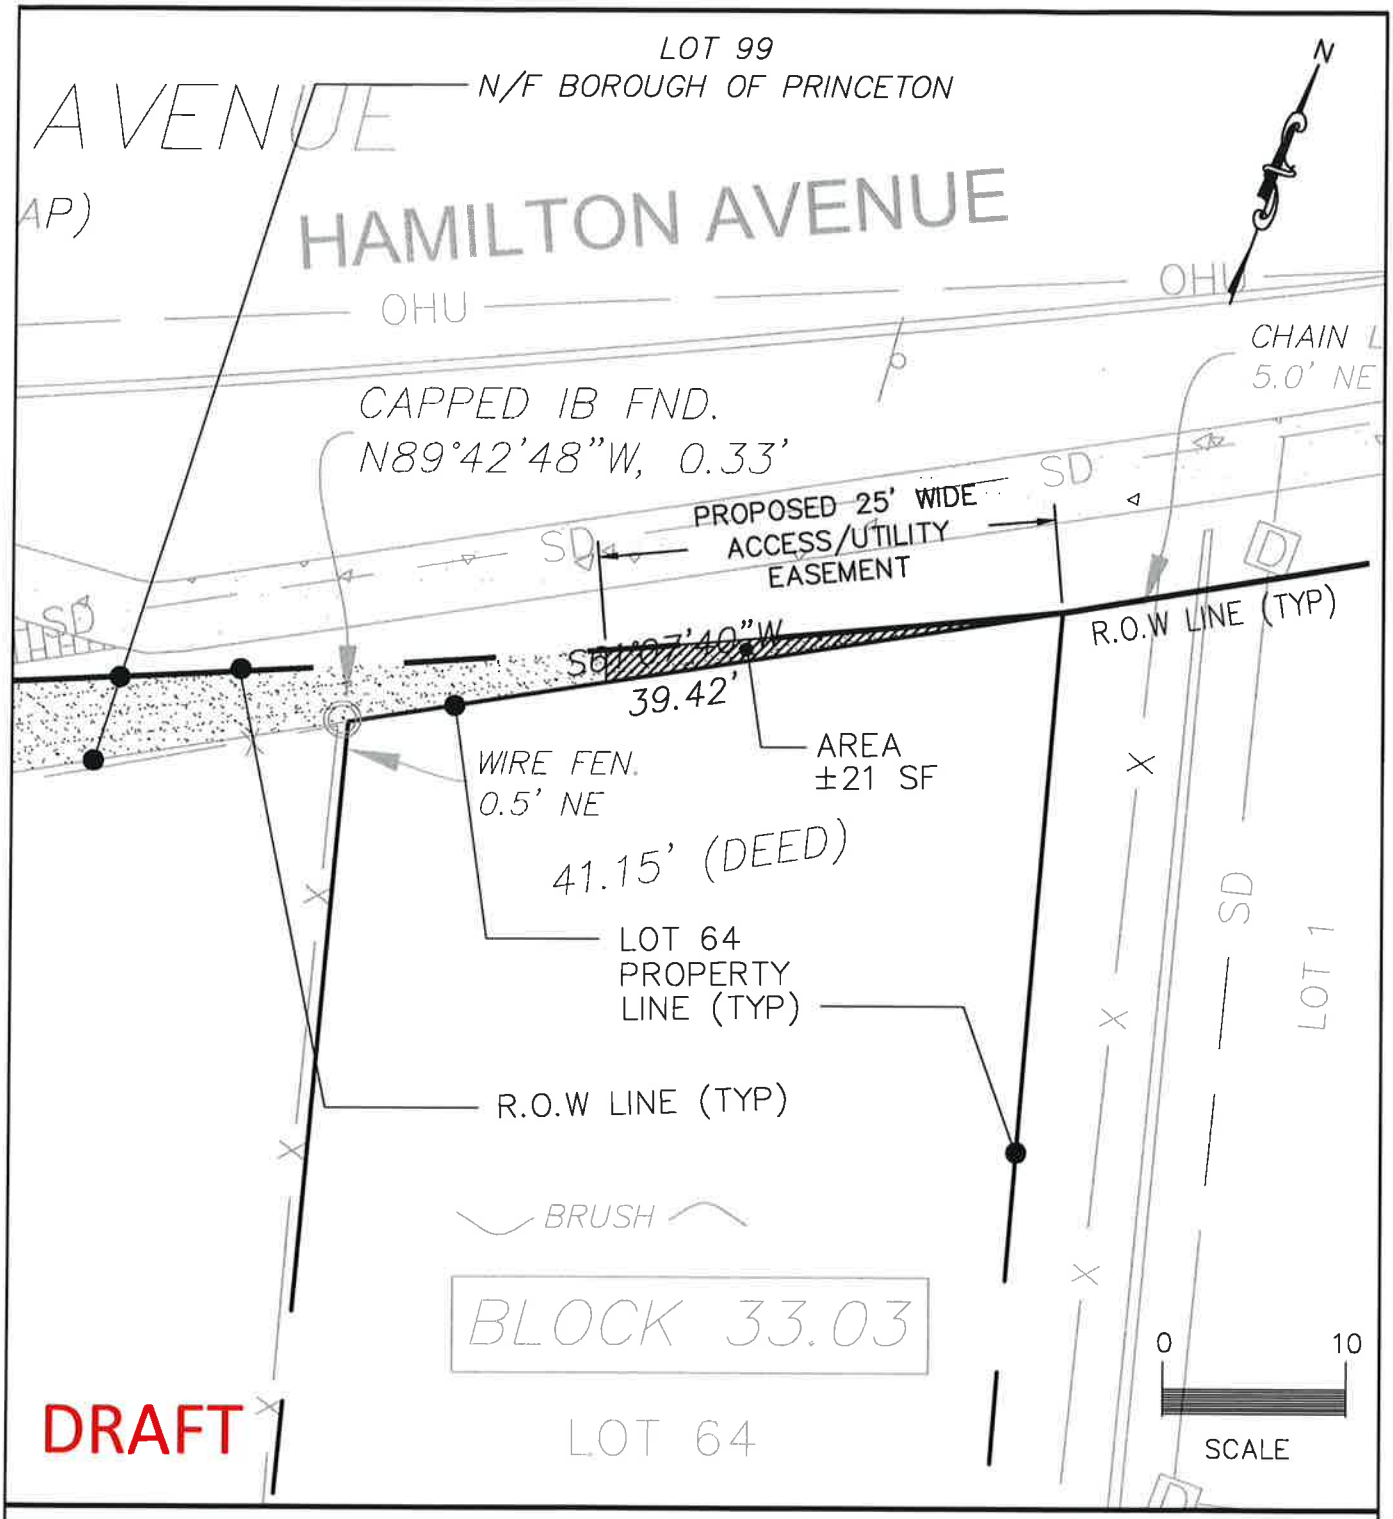

I'm writing this email in regards to the conceptual project we met about a couple weeks ago on spruce/Hamilton street.

I reached out to the affordable housing condominium next door to negotiate an easement for access to my property and was surprised to learn that the association does not want to sell rights to an easement. So I'm sending a sketch with access from Hamilton Ave that backs up to my property on 92/94 spruce street. It crosses through a little sliver of green acres, highlighted below. I was hoping you could run this by green acres to see if they will grant us an easement.

The easement is 25' in width and only 21 square feet of area. It runs through the tail end of their property, and is not usable space. If some compensation for green acres helps to come to an agreement, we are certainly open to discuss. Let me know if this is something you can run by them and feel free to email or call with any questions. Thanks in advance.
